

**Home of Hope:**

Provides a place of safety for child victims of violent crimes as well as children who have been abandoned or born bearing the effects of excessive alcohol and drug abuse during pregnancy.

We supported Home of Hope through buying their products for end of year client gifts, and our goal is to contribute financially on a more consistent basis in the very near future.

We attended a breakfast to help raise funds for this project and donated tin food and gifts for these children who would otherwise not receive anything special over the "Season of Giving".
